new program added to our youth services: Photography

I'm proud of the work we do! This volunteer team is changing the world one day at a time in small, meaningful ways. We are proof that it doesn't matter the amount of resources or connections you have. What matters is that you give your time and energy to making the world better. Small acts of kindness matter just as much as big ones, actually they matter more! I'm thankful to everyone who has contributed to our success, especially in the midst of a lot of changes and additions. Specific highlights include:

- Doubling down on our commitment to local, at risk youth by providing various educational trips, in and out of the state, throughout the summer
- Increasing our effects to combat food insecurity by improving our mobile food pantry service
- Having our best year in grant donations and individual contributions

I'm excited about what's next for us. I'm excited to see communities become empowered and thrived and for this team to get the recognition they deserve because of the amazing work they do. There's a lot of work to be done but we are well on our way toward accomplishing it. How we do this work is just as important as the type of work we're doing. We must continue to focus on providing quality programs and services with joy. Joy and quality in serving others is a standard we can never forget. It's what makes the future we're creating worth living in!

-Ron
